

it goes in trash... the bin

Beginning June 1

We need your help! In an effort to transform and beautify our City, Waste Pro and the City of Deltona are transitioning to a completely automated system that will be environmentally beneficial and create a look of uniformity in our neighborhoods.

Here's what that means for residents:

- Waste Pro will pickup up to two garbage bins each collection day and unlimited recycling.
- Residents may add a second bin if necessary. They are available from Waste Pro (\$75) or at area hardware stores. All bins must be square and compatible with Waste Pro's automated trucks. Waste Pro will be responsible for their containers, as they are the property of Waste Pro, but cannot guarantee personal bins.
- **All garbage must be bagged and IN A BIN!**
- Lids on garbage bins must be closed.
- Garbage bins must be placed at the curb correctly (wheels towards the house, lid opening facing the street).
- Residents with large items should call Waste Pro for a scheduled pickup (386) 574-0723.
- Garbage bins and recycling containers should not be at the curb earlier than 6 p.m. the day before collection day and be picked up no later than 9 p.m. on collection day.
- Residents are allowed to take 16 bags of yard waste, piles or bundles of limbs and/or shrubs to the curb on yard waste collection day, as long as each bag, pile or bundle does not weigh more than 60 pounds.
- Excessive amounts of bulk garbage or yard waste that's more than the collection limit, may require fees and may lead to a citation/fines.

If you have questions about this new garbage program, please call (386) 878-8723 or visit the Solid Waste Division page at DeltonaFL.Gov
